

General

Dynamic Multi Fund is a sub-fund of the Shelter UCITS SICAV where Shelter IM is the investment manager. The objective of the Sub-fund is to provide investors with a positive return over the long term by investing mainly in collective investment undertakings (UCITS, other UCIs and ETFs). This Sub-fund invests mainly in other collective investment undertakings which, in turn, invest mainly in different government and corporate bond markets and/or in the equity markets (including real estate investment trusts) and occasionally in other strategies such as alternative investments. This Sub-fund is classified as an “Article 8 +” fund under SFDR regulations and promotes environmental and social characteristics with a minimum % sustainable investments. The asset manager will target to select investment funds that take sustainability and/or ESG criteria into account as further described below.
